This chart was compiled with the assistance of Slikker Laboratories by actual laboratory analysis combined with the most up-to-date nutrition information from the ESHA Research database, which includes the USDA's National Nutrient Database for Standard Reference as the foundation of most food and nutrition databases in the US. Some variations may occur due to differences in product assembly or preparation at the restaurant, season of the year, region of the country, local suppliers or use of an alternative supplier or ingredient. Listing is periodically updated to reflect the current status of our products.
